iamdrainy@gmail.com

I am an aspiring full-stack developer currently earning a certificate from Case Western Reserve University's full-stack coding bootcamp, coming from a background in music and animal care. I take pride in being a dependable and hardworking team member, and am used to handling stressful emergency situations.

EXPERIENCE

Camp Bow Wow, Highland Heights, OH — Team Lead

OCTOBER 2020 - NOVEMBER 2022

Managed 3-4 employees and handled payments and in-person customer interactions as well as answering phone calls. If the manager was present, I typically took care of the large dogs, usually averaging around 40 dogs.

Giovanni's Ristorante, Beachwood, OH — Busser

JANUARY 2019 - JUNE 2019

I was responsible for clearing tables, serving bread, and refilling water and helping servers as needed. I focused on maintaining the fine-dining atmosphere of the restaurant and following the proper etiquette.

City of South Euclid, South Euclid, OH — Instructor

JUNE 2014 - AUGUST 2018

Instructed 2 of 3 advanced levels of swimming lessons, where I would regularly interact with both parents and children. I also acted as a lifeguard when needed, and frequently helped lead exercises during lifeguard training due to my proficiency in swimming.

EDUCATION

Ohio Northern University, Ada OH — BA in Music Composition

August 2016 - December 2018

I studied music theory in college for 5 semesters before deciding that a future in this career path would not be viable for me going forward, but I highly value what I learned and the general experience.

Charles F. Brush High School, Lyndhurst, OH — Highschool Diploma

August 2012 - June 2016

TECH SKILLS

Java, JavaScript ES6+, CSS3, HTML5, SQL, NoSQL, GitHub, MongoDB, MySQL, Express, React, Node, Handlebars, jQuery, Bootstrap

PROJECTS

Book.it — Javascript

I worked with 2 team members to create a 'virtual bookshelf' or sorts, where I handled the javascript functions for searching for books and adding them to a users page.

Perfect Day Planner — Front End

I worked with 2 team members to create an app based around planning a perfect day for a significant other and sending it to them. I handled the majority of the front end design and styling, and assisted as needed with the database elements.
